

The Healthy Democracy Coalition (HDC) is a network of investors dedicated to strengthening democracy and bridging divides. We invite business owners, philanthropists, and grant-makers to join our first **National Strategy Dialog** to discuss the structures, strategies and priorities of our ongoing journey to cultivate cross-partisan philanthropic learning and collaboration. We will gather in **Dallas, Texas on April 25th & 26th, 2019**, as part of [EarthX](#), a large national environmental conference and expo.

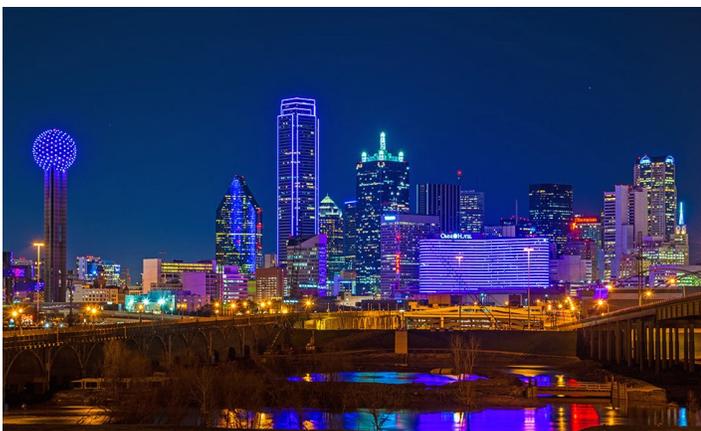

Participation in the HDC National Strategy Dialog is by invitation only.

For more, visit: www.democracycoalition.org and write to info@democracycoalition.org

In our time together, we will ask:

- What is the value of cross-partisan connection and learning?
- What are leading examples of cross-partisan philanthropic collaboration?
- What is the role of civic education in bridging divides?
- What cross-partisan outreach and inclusion strategies have been successful?
- How can cross-partisan philanthropists connect and collaborate, both locally and nationally?
- How can we set priorities as a national network?
- What issues should we focus on? Which should we avoid?
- What are leading strategies to address redistricting, voting issues, and electoral reform?

- What are leading strategies to advance immigration, criminal justice and education reform?
- What happens at HDC dinners? What are the results to date?
